SUMMARY

I have completed 2 small app projects on Android Studio and Unity 2D. I'm quite friendly and work well in a team. I want to learn more new knowledge to develop my programming skills.

WORK EXPERIENCE

Hoa Sen University
Front-End

09/2021 - 01/2022

Responsibilities

The application includes 2 functions, the first function is to choose the number of sentences and answer a quiz question with 4 answers, the second function is named "correct word", randomly appearing 1 random text and asking The player enters the answer. If the answer is correct, the score will be calculated and saved in the high score. There is also a function to skip questions to make it easier for players while playing.

Technologies:
Android Studio

Hoa Sen University
Dev Game

09/2021 - 01/2022
